My project is in the included folder "Terminator". If anything is unclear or if there are any questions, I am of course available at andrejkolarpozun@gmail.com What follow is a presentation of the application and its functionalities.

Terminator Nov Termin Kontakt Registracija Prijava

Dobrodošli na terminatorju

Na tej strani lahko preprosto rezervirate termin za vaše dostave v Lorem-Ipsum. Trenutno niste prijavljeni. Močno priporočamo, da si ustvarite uporabniški račun za hitrejšo izplonitev obrazcev in preprostejšega sledenja svojim dostavam.

Ustvari račun

Če se ne želite registrirati, si lahko vseeno termin rezervirate kot gost s klikom na spodnji gumb.

Rezerviraj termin

Page that shows up after you reserve a term as a guest. Being a guest, you can afterwards only access the term details via a generated link with your tracking number. The term details could also be viewed by a co-worker with an account, that works at the same company.

The Administrator can promote any other user into a warehouse worker or another administrator. So since we need an administrator to create one, the user with the email admin@admin.com is automatically an administrator (which stays secure, since only one user can have a given email).

Administrators and warehouse workers see the terms of all the companies on the term list.

An administrator can edit the data on term details page or even completely remove the term reservation.

Terminator Termini Nov Termin Kontakt Pozdravljeni Jan! Spremeni geslo Odjava

Podrobnosti termina:

If we are logged in as a warehouse worker, we cannot edit or delete the terms. We can however add a note to it or accept/reject the term reservation.
